Course Description:

This is the NTU micro seminar that invites speakers to present their current research. The purpose of this course is to expose students to the frontier of microeconomics.

Grades:

The grades for this course will be assigned according to the following criteria: (1) Attendance, (2) Participation, and (3) Bonus Credit. The maximum grade is 99.

1. Attendance (70%)

Students are expected to attend most of the presentations. You can earn a 5-point bonus if you attend all presentations. The presentation schedule will be announced on the course page and the department website. Failure to attend will result in lower grades.

2. Participation (30%)

Students are expected to ask questions or give comments during the seminars.

3. Bonus Credit:

You can receive extra credit for finishing the following assignment: Sign up to read *one* of the seminar papers *before* the seminar, write a one-page report, and send it to me *three days prior* to the seminar. On the front page, you should write a short summary (*less* than 500 words) that briefly answers the following questions:

- a. **What is the question (of the paper)?**
- b. **Why should we care about it?**
- c. **What is your (or the author's) answer?**
- d. **How did you (or the author) get there?**

On the back page, if it is a theory paper, you should provide a list of common notation used throughout the paper so people can easily refer to during the talk.
