### Course Description:

This is the NTU micro seminar that invites speakers to present their current research. The purpose of this course is to expose students to the frontier of microeconomics.

### Grades:

The grades for this course will be assigned according to the following criteria: (1) Participation and (2) Written Introduction (a short note prior to class).

#### 1. Participation:

Students are expected to attend most of the presentations and ask questions or give comments during them. Failure to attend will result in lower grades.

#### 2. Written Introduction (導讀): [Email me to sign up first!]

Read *one* of the seminar papers *before* the seminar, write a **one-page report**, and send it to me *three days prior* to the seminar. On this one-page report, you should write a short summary (**less than 500 words**) that briefly answers the following questions:

- a. **What is the question (of the paper)?**
- b. **Why should we care about it?**
- c. **What is your (or the author's) answer?**
- d. **How did you (or the author) get there?**

In addition, provide (on the back page) a list of common notation used (if it's a theory paper) throughout the paper so people can easily refer to during the talk.
