

Taiwan Smart Healthcare Ecosystem

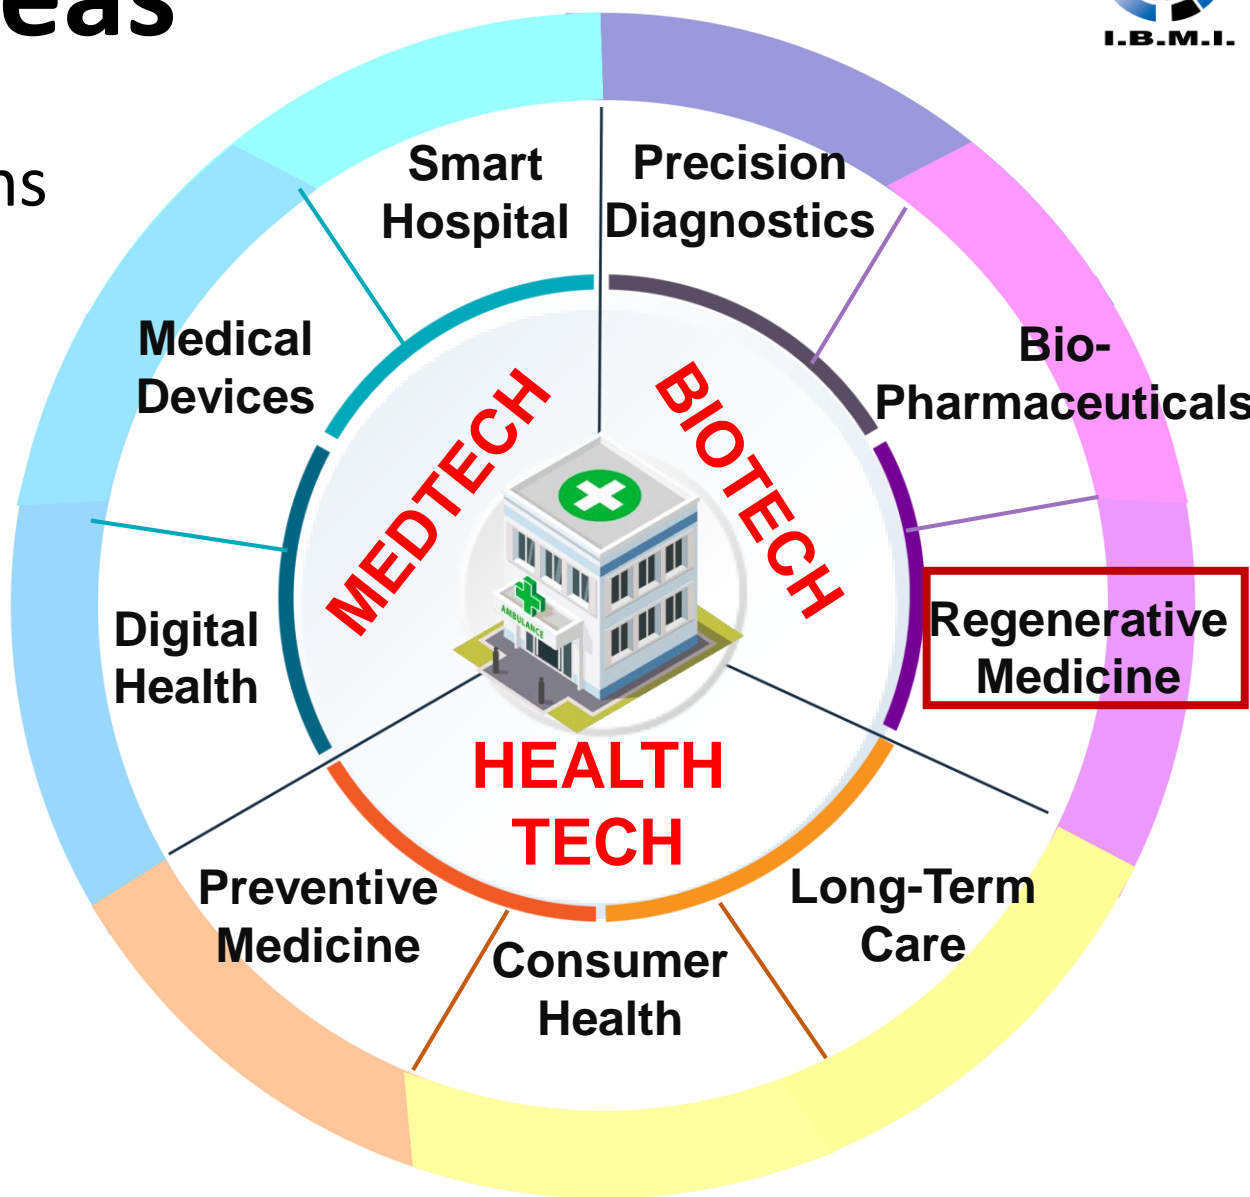

Dr. Chung-Liang Chien, CEO
Institute for Biotechnology and
Medicine Industry (IBMI)
Professor, National Taiwan University

2024.06.06

Taiwan- Focused Areas

The IBMI accelerates collaborations of **Medtech, Biotech** and **Health tech** sectors, providing them a platform to display novel technologies and solutions and inspiring innovations and partnerships in healthcare.

Regenerative Medicine is one of important Biotech in Taiwan.

Areas of application						

Fujifilm Healthcare acquires Hitachi Diagnostic Imaging in 2021

Diagnostic imaging equipment global market share by sales (2018, in percent)

Source: Evaluate **8.4 + 9.5 = 17.9 (Japan)**

Fujifilm Healthcare presented a complete and integrated portfolio of diagnostic products and services, including CT, MRI, X-ray, AI, PACS, endoscopy and ultrasound systems.

Fujifilm “One-Stop” solution partner for the Healthcare systems

ONE-STOP Solutions

Fujifilm has a wide range of products including diagnostic X-ray imaging equipment, ultrasound systems, endoscopy, in vitro diagnostics, CT, MRI, and by positioning medical informatics as an open platform, the company can offer a wide variety of solutions to healthcare systems.

Featured Products

Solutions

Smart Operation Room

ODM / OEM of Medical Device

Other Smart Healthcare Solutions

Fitness System

Smart Wearables

Smart Ward

Health Management System

Long-Term Care Monitoring Solution

After seeing all these successful solutions...

Taiwan hospitals are expanding their productivity to be the solution providers.

彰化基督教醫院
CHANGHUA CHRISTIAN HOSPITAL

員林基督教醫院
Yuanlin Christian Hospital

U.S. Green Building Council
LEED Gold Level Certification on
Dec, 2015

ICT Players launch products and solutions:

- ◆ Smart Nurse Station
- ◆ Smart Ward
- ◆ Smart Clinic
- ◆ Smart Counter
- ◆ Smart Dialysis
- ◆ Smart Operation Room
- ◆ Multimedia interaction
- ◆ Accompany robot
- ◆ Logistics Management

⋮

Visiting the Thonburi Hospital 2022-09-07

Thonburi Hospital, one of the largest smart hospitals has worked with Taiwan's **Chunghwa Telecom** and **Imedtac** on a software-hardware-integrated solution. The hospital is still under renovation to be completed with functional smart hospital in one to two years. The link with Taiwan comes in perfect timing, as a good model for the demonstration of the smart hospital.

◆ Tech x Medicine: Expo Highlights in Medtech, Biotech and Healthtech

The Expo stands out among exhibitions of its type, fostering accelerated collaborations between the Medtech, Biotech, and Healthtech sectors. It provides a platform for showcasing cutting-edge technologies and solutions, sparking innovation, and fostering partnerships in healthcare.

Medtech

The Expo features upstream-to-downstream supply chains, showcasing innovative technologies, products, and services for therapeutics and patient care.

- Smart Hospital Solutions
- Medical Devices & Equipment
- Digital Health Technologies

Biotech

The Expo showcases supply chains from upstream to downstream, emphasizing diagnostics, labs, and services for screening, prevention, and treatment.

- Diagnostics, Laboratory
- Equipment & Services
- Biopharmaceutical Products & Services
- Regenerative Medicine Products & Services

Healthtech

The Expo presents consumer health products for people in various health states, aiding in immune health, managing risks, and promoting a healthy lifestyle.

- Preventive Medicine
- Consumer Health
- Long-term Care & Assistive Technology

Taipei BioInnovation Park (TBIP)

Taipei BioInnovation Park is Taiwan's first BOT development project for the biotech industry. It serves as a key core base, promoting nationwide biotech integration and international collaboration while nurturing talent and fostering innovation.

TBIP is a biotechnology industrial park with 17 floors (14F-17F are designed as the Incubation Center). The park is located near the NanGang Station, a transportation hub for high-speed rail and MRT.

世康開發股份有限公司
Century Biotech Development Corporation **TECO**

育世博 Acepodia is developing innovative, highly effective cell therapies for cancer that are broadly accessible for patients. By arming our powerful **cancer-killing cells** with the tumor-targeting technology, Antibody-Cell Conjugation (ACC), Acepodia believes it can develop powerful, accessible cell therapies for patients with cancer.

臺灣生物醫藥製造 Taiwan Bio-Manufacturing Corporation (TBMC) is a pioneering CDMO focusing on advancing biomanufacturing innovations. TBMC is developing an automated platform for the mass production of **MSC** and cancer immunotherapy cell therapy drugs. TBMC also offer comprehensive one-stop services including IRB planning and writing, process development, QC method establishment, functional verification, CMC document preparation, as well as clinical trial design.

美商永生 Stemcyte provides the private **cord blood banking** service also offers Newborn Genetic Analysis (NGA) which identifies any DNA irregularities and screens for over 200 health disorders.

藥華醫藥 PharmaEssentia is working to redefine the potential of proven therapies to enhance the health and quality of life for patients living with hematologic diseases. The PharmaEssentia is providing comprehensive educational, clinical, and scientific information about PharmaEssentia therapies and areas of interest.

艾萬霖生技
ExoOne Bio

艾萬霖生技 ExoOne Biotech is committed to developing the clinical application of **exosomes** and focusing on the treatment of degenerative diseases. The exosomes are mainly isolated from the mesenchymal stem cells of the umbilical cord (**UC-MSCs**).

Precision Biotech

精準生技 Precision Biotech is focusing on the **immune cell (NK/NKT) therapy** for cancers. They also provide services for cell processing and banking. IRB planning and writing, CMC document preparation, as well as clinical trial design.

高端疫苗 MVC is focusing on the development and mass production of vaccines and biologics. MVC have PIC/S GMP **certified cell culture mass production** capabilities, and target infectious diseases to develop novel vaccines and affordable biosimilar drugs via international alliances.

昱星生技 LumiSTAR is developing a pipeline of innovative cell therapies based on induced pluripotent stem cell (**iPSC**) technology. LumiSTAR also equipped with iPSC and bioimaging-based high throughput drug screening platform to develop new drugs.

瑞福生醫 Cytopacx is focusing on the neural regeneration and tissue engineering with **exosome technology**. Cytopacx is also providing a health supplement with combination of probiotics formulated with useful skin activating factors to improve the skin condition.

智新生技 Intelligene is at the forefront of advancing **gene therapeutics** through siRNA-based drugs. The mission of Intelligene is to confront the looming threats of pandemics and influenza.

禾豐醫 LKST Biosciences is Taiwan dealer of LONZA COCON (The **Cell Therapy** Manufacturing Platform) and CYTEK Biosciences (Full spectrum flow cytometry systems). LKST Biosciences provide researchers with advanced cell culture solutions to support the R&D for cell therapy.

新析生技 Syncell is to accelerate the world's understanding of proteomics with **de novo precision spatial proteomics tool**.

Pilatus Biosciences, a Swiss start-up company, was founded in 2022. It focuses on the development of first-in-class targeted metabolic checkpoint antibody drugs (Anti-CD36 Antibody PLT012 and Anti-PD-L1/IL-10 Immunocytokine PLT011).

Branding Taiwan
