Institute for Biotechnology and Medicine Industry (IBMI)

社團法人國家生技醫療產業策進會 (生策會)

Established Year: 2002

Founded by the former president of the Legislative Yuan of Taiwan, Mr Jin-Pyng Wang, IBMI is an independent, not-for-profit organization voicing Taiwan-based health care industry, promoting interdisciplinary collaborations through its global platform, and creating policy dialogues between public and private sectors. On top of that, IBMI is also a trusted awarding and certification body to health care providers and an incubator to health care startups in areas of novel technologies, services and innovations.

台北南港展覽館一館 1F + 4F

APAC's Premier Expo Connecting Hospitals, MedTech, BioTech & HealthTech

National Strategy Leading the Way:

Manufacturing × Computing Power × AI Powering a New Global Healthcare Engine

EXPO · TAIWAN

2025 台灣醫療科技展

At the 9th Healthcare+ Expo Taiwan, international buyer engagement expanded from Southeast Asia to the Middle East, Europe, North America, and recently to Africa and South America. This growth reflects Taiwan's strong competitiveness and integration into global supply chains, with the exhibition serving as a direct platform to connect innovations with global healthcare markets.

Building on world-leading semiconductor manufacturing, advanced AI computing capabilities, and strong clinical expertise, Taiwan has established a **Manufacturing + Computing Power + Medical AI ecosystem**, positioning itself as a critical hub in the global medical technology supply chain.

The Expo was attended by President Lai Ching-te, Chairperson of the Expo Kuo-yu Han, IBMI President Chi-Huey Wong, senior government officials, and leaders from Taiwan's biomedical and healthcare sectors. This year it **gather over 200 global association leaders, hospital presidents, and corporate representatives**, fostering cross-border procurement, clinical collaboration, and alignment with international quality standards.

125 Overseas Hospitals × 45 International Associations Driving Bilateral Collaboration

Building global industry alliances to enable bilateral market exchange and technology collaboration.

ABOUT TAIWAN

Super-aged society since 2025
more than 20% of the total population is aged 65 or older

Population
23.3 million

Area
36,197 km²

GDP & GDP/capita
761.4 billion & 32,756 (USD)

Life Expectancy & Healthy Life Expectancy
80.9 & 73.3 years (7.6 years unhealthy)

Physicians Ratio
2.23 per 1,000 Population

**Goal: Keep Healthy
without the need of
Long Term Care**

Themes: 3 major themes, 9 major fields

Smart Service:

Integrating elderly & friendly designs, digital services, and smart technology, to create a demonstration site for a tech-enhanced elderly lifestyle. Accelerating the widespread adoption of gerontechnology products and services, ensuring peace of mind, health, and convenience in elderly living!

Healthcare:

From health management to assistive and caregiving technologies, linking cloud-based big data and mobile communication tools to promote healthy aging without the need for long-term care! Utilizing technology to enhance caregiving efficiency and outcomes, reducing the burden of care!

Happy Living:

Gathering digital resources, technological learning, and social interaction tools tailored for the elderly, enhancing their skills in using digital technology and strengthen their social connections.
