

# Emergency Financial Aid for Students

---

Unforeseen rains and winds may beat down even the strongest of saplings, and sudden difficulties may overwhelm one's stable life.

As they continually absorb knowledge, students shape their multifaceted values and paths in life, and similar to how a sapling grows into a large tree, they must first get prepared then contribute to this land. To help students weather emergencies, NTU's Emergency Financial Aid for Students provides stipends for timely assistance in overcoming such difficulties and successfully completing their studies when in dire need of support.

Your kindhearted donation will benefit NTU's students by providing them with a strong backing in their path to learning. As such, they can achieve their dreams at a stable and steady pace and give back to the society.
