Endowment Fund

NTU needs your participation and support! We've opened an NTU Endowment Fund, specifically designed for stable, long-term expenditures on improving education capabilities and international standing, all paid for solely from the money derived from its yearly 4% interest rates.

Matters such as improving NTU's academic standards and aiding Taiwan's economic development are also vital issues taken on by our Perpetual Fund, aiming for a spot among the world's top 50 universities.
